

PELAGIC SEALING.

Evils Attending the Slaughter of Female Seals.

Efforts of the United States to Protect the Animals.

Mr. Carter Concludes His Argument in the Bering Sea Case.

Its Delivery Occupied Forty Hours and at Its Conclusion the Attorney Was Complimented by the Council's President.

By Telegram to The Times.

PANAMA, May 2.—[By Cable and Associated Press.] The Bering Sea tribunal of arbitration resumed its session today. Lord Hannen, the British arbitrator, who has been ill, being sufficiently recovered to be present.

J. C. Carter, counsel for the United States, maintained that the rights of the United States in Bering Sea were absolute and unqualified. He argued over again that the Government of the United States is justified in protecting its rights in those waters in time of peace as well as any other time. He claimed that the United States had the right to seize vessels caught in pelagic sealing. "Assuming," argued Mr. Carter, "that the rights of property the United States claim is admitted, is the Government of the United States to follow low vessels found engaged in pelagic sealing home in order to claim redress for trespass against municipal law? This would not only be ineffectual, but would not comport with the dignity of the United States. No nation ever designed to resort to another nation for enforcement of its municipal laws. The only method open for the proper enforcement of such a law is the method of force, and that is justifiable in the case of the Bering Sea, on the same ground as in the case of revenue and quarantine laws."

Mr. Carter proceeded to argue on the subject of regulations, but was interrupted by Sir Charles Russell of the counsel for Great Britain, who said that Great Britain would not recede from the position that the question of rights should be argued apart from the question of regulations. Sir Charles stated, however, that he would not object to Mr. Carter presenting a statement of his views on the subject.

An animated discussion followed, in which Baron de Courcelles, president of the tribunal, American Arbitrator Harlan, British Arbitrator Lord Hannen, Sir Charles Russell and Hon. E. Phelps took part. It was finally decided that the counsel for Great Britain should argue the question of rights and the question of regulations separately, but that the tribunal would not give separate decisions.

In a grand peroration Mr. Carter described the slaughter of female seals, heavy with unborn young, and other horrors of pelagic sealing. To prevent these horrors and protect the seal herds, the United States has taken the position which he had explained to the best of his ability. "The United States has taken this position at the risk of war with Great Britain," Mr. Carter said, "and they have been ready to maintain this position and to charge a duty to humanity, even if they are obliged to face half the world in arms. History would recognize their rights and the justice of their cause. The duty of the United States is not extinguished by the reference of the dispute to this tribunal, but has been merely transferred. The United States has withdrawn and left to the arbitrators the sacred duty of forbidding pelagic sealing, and compelling seal herds to be protected. If the tribunal should decline to assume the duty, it would only leave for posterity a new source of contention."

From the beginning to the end, Mr. Carter spoke for his country. He sat down Baron de Courcelles, the president of the court, said: "I cannot refrain from thanking you, sir, for the magnificent speech you have delivered, which has been characterized by a loftiness of view well worthy of this high court."

TEMPERANCE IN GREAT BRITAIN.

Mrs. Foster Will Not Meet With a Warm Welcome.

LONDON, May 2.—[By Cable and Associated Press.] In an interview Lady Biddulph, leader of the British Women's Temperance Association, said in regard to the visit to this country of Mrs. J. Ellen Foster, the noted American temperance advocate, that she was not aware that Mrs. Foster's intention was to come to Great Britain, and warmly declared she would not be allowed to speak in the convention of the British Women's Temperance Association. The convention would be private. The chief topic of discussion would be whether Lady Henry Somerset would be allowed to introduce politics into the work of the association, and the association would consider whether it would reaffirm with the association of Miss Frances Willard. It was intended to oppose the reelection of Lady Somerset to the presidency. The ladies of the association are said to be excited over the prospect of the appearance of Mrs. Foster's delegation in the convention.

KILLED HIS MISTRESS.

GRESHAM (Wales), May 2.—[By Cable and Associated Press.] Mrs. Whittle of this place had in her employ a groom named Sheppard. He took a holiday yesterday and returned in the evening, when he entered his mistress's bedroom and shot her after kneeling down and delivering a prayer he blew out his own brains. He threatened to kill the serving maid, who appeared during the progress of the tragedy. It appears that there was a liaison between Sheppard and Mrs. Whittle. Her husband, a town councillor of Charlton, a suburb of Manchester. The relations between Sheppard, who was aged 40, and Mrs. Whittle, aged 28, began when he was in the service of her parents before her marriage. She persuaded her husband to hire him, but he discovered the relationship between them, and sent his wife to Gresham, whither Sheppard followed.

THE CUBAN INSURRECTION.

Movements of the Bandits—The Troops in Pursuit.

HAVANA, May 2.—[By Cable and Associated Press.] The latest news in regard to the insurrection is that the bandits are now between Puerto del Padre, a harbor on the northeast coast of Cuba, and Manati. Seven columns of troops are in pursuit. The troops are being supported by two Spanish ships-of-war off the coast. Up to this date

not a single encounter has taken place between the government troops and rebels. It is rumored that the rebels propose to surrender if they are guaranteed that their lives will be spared.

KEY WEST (Fla.), May 2.—The Cuban of Key West (Fla.) and a brig full of enthusiasm. Five hundred men met on a retired portion of the beach last night, and were addressed by prominent speakers, who called for volunteers. From eighty to one hundred men stepped out and pledged themselves to fight for Cuban freedom. The Custom-house force still guards the beach, and a United States cutter is ready to sail at a moment's notice.

MAYO, May 2.—A Cabinet council was called this evening to decide what reinforcements and supplies should be dispatched to Havana.

WASHINGTON, May 2.—The State Department is ignorant officially of the reported insurrectionary movement in Cuba. Nothing bearing on the subject has been received by the Government from the Spanish Legation in Washington for several months, and no recent communications concerning the matter have come from the United States diplomatic officers. Assistant Secretary Adee believes that the movement is nothing more than a renewal of the banditti system, which offers many opportunities for plunder in the wild and unsettled portions of the island.

EASTERN FLOODS.

The Danger at St. Louis from High Water Believed to Be Over.

ARKANSAS EXPERIENCES ITS THIRD FLOOD.

This Year—Heavy Rains Have Ceased in Ohio—The Situation at St. Paul.

By Telegram to The Times.

ST. LOUIS, May 2.—[By the Associated Press.] For the present, at least, the danger of further damage by high water seems to be past. This evening the river was stationary at 31½ feet, and no further rise is immediately anticipated. On this side of the river, where the water has been reported, and on the other side the situation is about the same as last night. The low levee south of East St. Louis is in imminent danger. Men and teams have been working steadily to save it from being washed away. Tonight it looks as if their efforts would be fruitless.

ARKANSAS'S THIRD FLOOD THIS YEAR.

The advice from Southern Missouri and Northeastern Arkansas are to the effect that the third flood this year in the White and Black rivers is pouring down, doing great damage to all kinds of property.

A large part of Poplar Bluff, on both sides of the river, is submerged, and the people were obliged to abandon their homes. The bottom lands of both the White and Black rivers are flooded for scores of miles. All the crops are damaged or wholly destroyed.

At Steelville, Mo., water poured through the streets four feet deep, flooding houses. Many bridges were washed away.

THE SITUATION IN OHIO.

CINCINNATI, May 2.—The heavy rains have ceased and cooler weather prevails. The danger of a disastrous flood in the Ohio River is not now imminent. The river now stands at fifty feet and six inches above the low-water mark, and is rising only half an inch per hour.

The greatest damage has occurred along the smaller rivers in Ohio. The Miami is higher than since 1884. The paper mills at Franklin and Middletown were compelled to stop work along the river, and thousands of acres are submerged.

Along the Scioto the same state of affairs exist. The City Park at Chillicothe is flooded, and the bottom lands are all under water.

By the absence of a rise from the headwaters prevents an unusual flood in the Ohio River.

HIGH WATER AT ST. PAUL.

ST. PAUL, May 2.—The Bohemian flats were largely inundated, and likewise nearly depopulated, for not more than half a dozen families now remain. The houses were partly filled, but no damage has yet been done.

In West St. Paul, from the Lafayette School building to the Baseball Park, extends a vast lake, with many little islands, surrounded by small houses and live stock.

FLOODS IN MINNAPOTA.

WINNEPEG (Manitoba), May 2.—A dispatch from Emerson tonight says that neighborhood has been transformed into a great lake by the overflowing of the Red River. The damage in Emerson is heavy. Several buildings were carried away and merchants were moving their goods for the second time since the river broke.

BUSINESS TROUBLES.

The Illinois Loan and Trust Company's Liabilities.

CHICAGO, May 2.—[By the Associated Press.] A special from Sioux City, Iowa, says: "Assignee E. H. Hubbard of the Union Loan and Trust Company has made a statement which has created a sensation here. In the original statement of the liabilities of the company, which was filed when it failed, they were placed at about \$750,000, with assets of twice that amount. It proves that the assignee's statement that the liabilities are immensely greater, amounting to about \$6,000,000. In an interview Hubbard said: 'I will be ready in a day or two to file my statement of the liabilities. I have not yet gone far enough to make a statement of the exact amount of the liabilities of the company, but from various sources I learn indefinitely that they are about \$6,000,000. This includes both direct and indirect liabilities, the latter being on account of notes indorsed by the company. The company's paper has been sold all over the country, and is held mainly by banks.'"

NEW YORK, May 2.—A judgment was entered in the Richmond County Clerk's office yesterday against Prastus Wyman in favor of Orrin S. Wood for \$16,000. Wyman confessed judgment in favor of Wood for the market value of some first mortgage bonds of the Northwestern Telegraph Company, which he borrowed from Wood. Wyman's financial complications will probably be straightened out to the satisfaction of his creditors much sooner than was expected, as his land is being appraised and will be disposed of as soon as possible.

The Sheriff today took charge of the large office of the United Paper Company under an attachment for \$645, and Frederick K. Day was appointed receiver of the company. The United Paper Company is known as the tissue trust, and was formed with a capital of \$8,000,000 to control the manufacture of tissue paper. The trouble of the company is ascribed to a lack of working capital.

The Pittsburgh Combination Clothing Company, with several stores in this city and one in Pittsburgh, Pa., has assigned without preferences. Its attorneys say the company has a stock worth \$600,000, and that the amount of liabilities will not exceed \$300,000.

RECIPROCITY.

Evasions of the Treaty by Cuban Officials.

The Spanish Officials Cornered by Mr. Blaine's Diplomacy.

Brazil is Also Dissatisfied With the Existing Treaty.

President Cleveland and Party Return to the Capital—California Cases in the Supreme Court—The Gold Situation.

By Telegram to The Times.

WASHINGTON, May 2.—[By the Associated Press.] An evening paper has this: "Abundant reason for the abandonment of the policy of reciprocity under the McKinley bill exists in the complaints received by the State Department regarding evasions of the treaty" by Spanish officials in Cuba. The Spanish government was forced into the treaty by the diplomacy of Blaine, because of a fear that, if the Cuban sugar-growers were deprived of their market in the United States through reciprocity arrangements with the sugar-growers of other countries, they would raise a revolt against Spain. The Spanish government intends to make the treaty so unpopular that it will fall to the ground of its own weight, and have imposed an excise tax nearly equal to the duties remitted by the McKinley bill. Our Government will either protest strongly against the tax or wile out the whole treaty, and leave the Cuban growers to face the possible import duty and other evils of reciprocity. The Brazilian government is also making a double overture to reciprocity, but is not apparently violating it greatly or so flagrantly as the government of Spain. It was understood when the schedules of discriminations in favor of the United States were made that the tariff on Brazilian import duties might be raised. Brazil took advantage of this arrangement to raise the dutiable schedules as soon as the reciprocity arrangement was made, and said that she was obliged to do so in order to obtain sufficient revenue for carrying on the federal government. The result has been a very small net gain to American merchants, while the people of Brazil are complaining of increased schedules against other countries.

"The reciprocity arrangements with both Spain and Brazil would probably be wiped out at once but for the desire of the administration to proceed with deliberation, and the fact that the southern countries dependent upon the revision of our entire fiscal system."

CLEVELAND'S RETURN TRIP.

The Presidential Party Has an Uneventful Journey.

PITTSBURGH, May 2.—[By the Associated Press.] The train bearing President Cleveland and party passed through here at 7:30 this morning. All of the party were asleep. The trip to this point was without incident. Throngs gathered at the stations on the way in the earlier stages of the journey, but the President was fatigued and did not show himself.

HARRISBURG, May 2.—The train bearing President Cleveland passed through here at 2:15 this afternoon. The Pennsylvania station bringing in Cleveland and those of his Cabinet who returned with him from Chicago. Arrangements were in waiting and the travelers were at once driven to their respective homes.

Secretary Gresham said the journey home was devoid of any special interest, but that Cleveland and the Cabinet were well pleased with the trip.

SUPREME COURT.

Decisions Rendered in a Couple of California Cases.

WASHINGTON, May 2.—[By the Associated Press.] The United States was a winner in two cases decided in the Supreme Court yesterday on an appeal from California. Moses Mock was sued to recover damages for unlawfully cutting down 500 trees upon Government land in Fresno county. On the trial no evidence was offered as to the value of the timber as growing trees, although there was as to the value of the lumber manufactured therefrom. The jury that it could not guess at the value of the trees, and that the verdict must be for the defendant. In this Justice Brewer said, for the Supreme Court of the United States, that the court below is in error and upon the error the judgment of the Circuit Court was reversed and the cause remanded for a new trial.

Moses Mock and John W. Humphries operated a sawmill, working upon trees secured as being in the previous case. Suit was begun against them for damages and in the trial the court admitted testimony to show that the mill was not a profitable concern. With the reflection that person engaged in unlawful proceedings could not be permitted to plead in defense thereof that it was not a profitable proceeding, Justice Brewer announced the reversal of the judgment of the Circuit Court and ordered a new trial.

CAPT. WILT'S REMAINS.

The Body of the Dead Officer Arrives in Washington.

WASHINGTON, May 2.—[By the Associated Press.] Yesterday persons who passed by Lafayette Square saw a casket draped with the American flag and borne by eight stalwart sailors of the American Navy. It contained the body of the late Capt. Wilt, U.S.N., which had been brought here for burial.

Capt. Wilt recently died suddenly in New York. There is a pathetic story connected with his death. Capt. Wilt was in command of the United States steamship Boston at Honolulu when the recent revolution occurred, and at the request of United States Minister Stevens landed a detachment of marines and hoisted the Stars and Stripes over Hawaii. His term of sea service expired soon after, and he returned to this country. The taking down of the American flag at Honolulu broke Capt. Wilt's heart, and brought on a third attack of apoplexy, causing his death. "What makes you think so?" he was asked. "I don't think so. I know it to be a fact," he answered. "He told me it was such a shock to him that he could

never get over it, and he never did. He loved that flag. He had served nearly all his life under it."

RUSK STARTS FOR HOME.

The Ex-Secretary of Agriculture Leaves Washington.

WASHINGTON, May 2.—[By the Associated Press.] Ex-Secretary Rusk and family left for the West on the Pennsylvania Railroad this afternoon. A large number of the officers and employees of the Department of Agriculture went to the station to bid their former chief good-by. A large box of choice flowers was presented to Mrs. Rusk by officials connected with the department. Gen. Rusk and family will stay in Chicago a few days before proceeding to their Wisconsin home.

GOLD IN THE TREASURY.

It is Increasing Slowly and the Situation is Satisfactory.

WASHINGTON, May 2.—[By the Associated Press.] The gold in the treasury is increasing slowly, and the situation is regarded as satisfactory. It is hoped by the department officials that Secretary Carlisle has made arrangements with the Chicago bankers for a large addition to the treasury gold. There has been some criticism of the statement that the Chicago national banks held more gold coin than those of New York. The latest official report on the subject showed that the Chicago national banks held over \$2,000,000 more gold coin than the New York national banks.

TARIFF ON WOOL.

An Important Ruling in Regard to Imports.

WASHINGTON, May 2.—[By the Associated Press.] An important ruling, affecting the duties on wool, was embodied in the instructions addressed by the Secretary of the Treasury Department to the Collector of Customs at New York today. The Collector is directed to refund certain importers the excess duty exacted on third-class wool, in accordance with the decision of the Circuit Court of Appeals at New York. The result will be that one-half of the duty exacted will be refunded. The instructions will be applied generally to all pending cases, and will form a rule for the future guidance of collectors.

MAXWELL HAS A DAY OFF.

WASHINGTON, May 2.—[Special.] Gen. Maxwell took a day off yesterday and went over to New York, and, as a consequence, not a solitary fourth-class postmaster was appointed today. A double dose may, however, be expected tomorrow.

JOHN H. CURR OF SAN FRANCISCO WAS THE ONLY CALIFORNIAN TO APPLY FOR A TREASURY JOB TODAY, AND HE APPLIED THROUGH A FRIEND FOR THE SUPERINTENDENCY OF THE MINT.

ROOSEVELT WILL NOT RESIGN.

WASHINGTON, May 2.—Theodore Roosevelt will continue to serve as a member of the Civil Service Commission. Immediately after Cleveland's inauguration Roosevelt sent in his resignation, but the President has not accepted it.

DEATH OF HERBERT A. PRESTON.

WASHINGTON, May 2.—Herbert A. Preston, one of the oldest of Washington correspondents, died at his residence in this city today of a complication of diseases.

JEWS IN RUSSIA.

The Russian Consul in New York Declines to Sign a Passport.

A Hebrew Citizen of the United States Refused a Safe Journey Through the Land of the Casar.

By Telegram to The Times.

NEW YORK, May 2.—[By the Associated Press.] An afternoon paper says that Russian Consul-General Glavovsky yesterday declined to place his signature upon a passport issued by the State Department and presented by Mrs. Sadie Schwartz of this city, the wife of a citizen of the United States, on the ground that she is a Hebrew, and that the laws of his country forbid him signing such passports. The newspaper sent a reporter to the office of the Consul-General this morning with a passport refused to be signed, and stated that the Consul refused to put his signature to it when, in reply to a question, the reporter said he was a Hebrew.

A special carload of people went north yesterday, ticketed to Sioux Falls, S. D.

G. H. Millan, commercial agent for the Southern Pacific at San Diego, came up yesterday with a carload of passengers to join the Rock Island excursion.

The Santa Fe has met the Southern Pacific's train on New York and Boston—75 cents and 80½ cents respectively.

Gov. Nelson of Minnesota has signed the anti-scalper bill, which makes the sale of railroad tickets by any person other than agents punishable by a fine of not more than \$500 or imprisonment for not more than one year. The scalpers, backed by the newspapers and labor organizations, declare that the law is passed by the use of money and free passes, and that it is unconstitutional. They will pay no attention to it and will make a test case as soon as an arrest is made.

The Atlantic and Pacific Railroad is now said to be overruled with freight. All along the line the sidetracks are crowded with cars, there not being motive power enough to move them. This seems strange in view of the fact that ten new locomotives were recently placed in commission on that road.

W. C. Goudy, a prominent lawyer of Chicago, general solicitor for the Chicago and Northwestern Railway, and known in Los Angeles through his connection with the litigation over the cable-railway in this city, died on April 27.

The Chicago brokers who were recently arrested for selling railroad tickets were discharged through habeas corpus proceedings. The ground on which they were given their liberty was that a good indictment could not be drawn under the law passed in 1875, prohibiting the sale of railroad tickets by other than authorized agents of the companies.

THE TURF.

San Francisco Jockey Club's Meeting—Races Elsewhere.

SAN FRANCISCO, May 2.—[By the Associated Press.] The Jockey Club's meeting began today at the Bay District track. The races were: Eleventh-sixteenths of a mile: Mackey won, Little Thorough second, St. Patrick third; time 1:00½. One mile and three-eighths: El Rey won, Almont second, Martinet third; time 2:34½. Thirteen-sixteenths of a mile: Regal won, Joe Cotton second, Nellie G. third; time 1:22. Half mile: Claire won, Tike S. second, Warrago third; time 0:50½. Five and one-half furlongs: Reno won, Joe D. second, North Wind third; time 1:10½. St. Louis (Mo.), May 2.—The track was good. Six furlongs: Edgar Johnson won, Mollie Bawn second, Locklock third; time 1:19. Four and one-half furlongs: Pop

RAILROAD AFFAIRS.

To Make Rates from Eastern Points to California.

The Rush of Travel Eastward Creates a Famine.

Division of the Santa Fe into Two Parts.

The Southern Pacific's Wool Trade Has Been Met—Ticket Brokers Gain a Victory—Local Notes—Scrap Heap.

The managers of the eating houses along the Atlantic and Pacific are protesting against being swamped with such crowds of passengers as have lately been devastating their tables and lunch counters. The manager at Winslow was so completely snowed under by an unlooked-for rush the other day that he begs for an arrangement whereby he can be notified of extra large trainloads in time to replenish his larder. The Harvey eating houses all along the Santa Fe lines get large quantities of provisions from Southern California, even the house at Deming receiving potatoes from Los Angeles, shipped around by way of Albuquerque.

TRANSCONTINENTAL PASSENGER RATES.

NEW YORK, May 2.—[By the Associated Press.] The Trunk Line Rate Commission met today for the purpose of figuring rates to California points, as well as rates to Chicago. The Missouri River lines having named \$45.50 as the rate from all points on the Missouri, Kansas City for first-class was named, and will be used in figuring through rates to California. If the ideas of the Trunk Line Commission are carried out it will cost \$80 to see the big fair, go through to California and return to New York.

THE CLERKS WILL GO TO WORK.

SAN FRANCISCO, May 2.—[By the Associated Press.] The fourteen clerks who were discharged by the Southern Pacific because of information supposed to have been furnished by some of them to a morning paper, will be restored to their places, the culprit having been discovered. The clerks, who were employed in the freight schedule department until March 1, when he was dismissed for intemperance. Second Vice-President Towne tonight said the clerks will go to work in the morning.

COLORADO CUT RATES.

DENVER, May 2.—The Denver and Rio Grande today further reduced the round-trip rate to Chicago to \$95, and \$27 to St. Louis. The other roads met the cut.

SCRAP HEAP.

The Consolidated Electric Railway people are through with Spring street, and now have excellent tracks through that thoroughfare. They are as glad as the public can be that the work is done.

The Consolidated Electric Railway people have a large force of men at work upon reconstructing the Pico Heights line. That road will soon be in first-class order.

The Phillips Rock Island excursion which left yesterday for the East had 118 passengers on its list, occupying five tourist cars and four sections in the regular line car.

The Santa Fe overland trains east-bound today will carry no less than six tourist carloads and four palace carloads of passengers.

General Manager J. J. Frey of the Santa Fe has issued a circular announcing and defining the East Grand Division and the West Grand Division of the lines in Kansas, Colorado, New Mexico and Texas. The system is virtually cut in two, Dodge City being the division point.

A special carload of people went north yesterday, ticketed to Sioux Falls, S. D.

G. H. Millan, commercial agent for the Southern Pacific at San Diego, came up yesterday with a carload of passengers to join the Rock Island excursion.

The Santa Fe has met the Southern Pacific's train on New York and Boston—75 cents and 80½ cents respectively.

Gov. Grap won, Nat Goodwin second, Keen third; time 0:57½.

Seven furlongs: Orrick won, New Castle second, L. H. third; time 1:39½. Six furlongs: Pennycroft won, Tim Murphy second, Blaze Duke third; time 1:17½. Six and one-half furlongs: Zoolin won, Burt Jordan second, Midway third; time 1:25. Washington, May 2.—At Benning the track was good. Six furlongs: Naptha won, Radiator second, Fanny Beverly third; time 1:10½. Five furlongs: Charley Wilson won, Hippocampus second, Benjamin third; time 1:04. Five furlongs: Black Child won, High C. second, Charon third; time 1:04½. Handicap, one mile: Strathmeath won, Arnold second, Bess McDuff third; time 1:44. Four and one-half furlongs: Briar (gelding) won, Salvia second, Minnie Brown third; time 0:58. Six furlongs: Capt. Brown won, Beautiful Bell second, Beldemonie third; time 1:17½.

THE GEARY ACT.

Unregistered Chinamen Will Not Be Arrested After May 5.

The Law Will Not Be Enforced Until Its Constitutionality Has Been Passed Upon by the Supreme Court.

By Telegram to The Times.

WASHINGTON, May 2.—[By the Associated Press.] Orders have been issued to treasury officers, special agents, internal revenue agents and others not to arrest unregistered Chinamen after May 5. On that date the Geary Chinese law provides that all unregistered Chinese in the United States may be arrested. As the constitutionality of the Geary act will be tested before the Supreme Court on May 10, it has been decided to await the decision before ordering wholesale arrests.

Up to noon fourteen of the 140 Chinamen in this city had registered, and it is expected that most of the others will do so between now and Friday next, the last day under the Geary Exclusion Act.

NEW YORK, May 2.—[By the Associated Press.] New York city's Chinese are not registering in accordance with the provisions of the Geary act as rapidly as are the celestials of Brooklyn and Newark. Only twenty-four Chinese have so far enrolled their names. Only two complied with the law yesterday. It is expected that the local Chinese will come forward at the end of the week, by which time they may receive instructions from the Chinese Minister at Washington to register. Such instructions have already been given the Chinese of Brooklyn and Newark.

TRAIN ROBBERY.

The Express Agent Refuses to Give Up, But Passengers Comply.

PANOSKY (Kan.), May 2.—[By the Associated Press.] A bold and partial successful train robber committed by six bandits, took place at Pryer Creek, 1. T., at 8:30 o'clock tonight. When the Missouri, Kansas and Texas south-bound passenger train, which left here at 4:30 this afternoon reached Pryer Creek, six masked men emerged from the darkness and, after signaling the train, proceeded to the front end. The engineer, fireman, conductor and brakemen were quickly covered with revolvers and marched from the train. While two men guarded the trainmen the others entered the express car. They threatened the messenger with a pistol and a knife, and ordered him to open the safe, but he refused to accede to their demands. Failing in this, they went to the baggage part of the train and relieved all the passengers of their money and valuables. Considerable consternation prevailed and several ladies fainted. After depositing the money and valuables in sacks the bandits backed out of the car, firing pistols into the air, and escaped in the darkness. The amount of booty secured is unknown, but is supposed to be considerable over \$2000.

A Big Strike in Scotland.

PASADENA.

Property-owners Advised to Go Slow on the Paving Proposition.

Los Angeles Musicians at the Operahouse. Improvements of Note—Pasadenians Leaving for the World's Fair.

It goes without saying that between now and Monday, May 15, there will be some lively hustling by the respective advocates of a cement-concrete base and of an asphalt-concrete base for the proposed street pavements to obtain the signatures of a majority of the property-owners, who will be called upon to pay for such work, to petitions calling for one or the other of these bases.

So far as the present specifications go, the asphalt-concrete men have the upper hand, for that is the kind of a base the specifications call for. But at least a few of the concrete-men are very much in earnest, and if there is such a thing as winning a majority of the interested property-owners over to their side of the case, they may be counted upon to do it. While the bulk of the evidence submitted at the Council meeting on Monday favored a cement-concrete base, there are still two sides to the question, and before signing their signatures to any petition property-owners who have hitherto given no special thought to the subject will do well to do a little investigation.

They will do well to inquire whether the "hydraulic" cement, which was referred to often by Mr. Fish, is the same thing as the Portland cement-concrete, which is being so strenuously advocated by certain of our citizens. Probably in some cases it is, undoubtedly in other instances it is not. The "hydraulic" cement is composed of some local cement, which is adopted on account of its cheapness, as at Denver.

It will also be well to investigate whether or not such of the asphalt pavements in this vicinity as have been reported unsatisfactory are composed of pure California asphaltum. It should also be inquired what constitutes a perfect base, and the relative properties of asphalt and cement-concrete should be compared from this standpoint.

No one questions the sincerity of the Council in the matter, and the fact that these gentlemen, after a searching investigation, declared in favor of an asphalt-concrete base constitutes in itself a strong argument for such a pavement. The property-owners have but a few days in which to investigate, and a dozen days from now will be early enough to sign a petition.

MUSIC AT THE OPERAHOUSE.
The Ideal Outing and Music Club of Los Angeles gave its eighth public concert at the operahouse before a fair-sized audience. The stage was prettily decorated in appropriate style, the floral pieces representing various musical instruments, which combined to make the club present a very picturesque appearance. The club was assisted by Herr Joseph Kubo, basso; Miss Huldah Gibson, soprano; and by Messrs. A. H. Boye and E. Latenser on the mandolins. The programme was the same as that of the last concert, and the success of that occasion was repeated. The various numbers were warmly received and an encore was demanded in almost every instance. Prof. de Lano's Pasadena pupils were out in full force and constituted, probably, the most enthusiastic portion of the audience.

ANNOYANCE BY THE LANSING CLUB.
Since E. C. Webster bought back his old residence property on South Marengo avenue improvements have been constantly in order until the place is beginning once again to attract a fair-sized audience. He has been repainted in new and novel colors that give to the exterior a most attractive appearance. The exterior has been repainted in new and novel colors that give to the exterior a most attractive appearance. The exterior has been repainted in new and novel colors that give to the exterior a most attractive appearance.

PASADENA BREVITIES.
The street sprinklers are running on full time. Yesterday's overland arrived about three hours late. Miss Pratt, of Sierra Madre was among yesterday's visitors. A meeting of Pasadena Lodge, K. of P., was held last night. Carpenters have begun work on the flooring of the Hotel Green annex.

Mrs. S. R. Lippincott, Jr., has returned from a pleasant trip to California. A party of visitors went up to Camp Wilson yesterday morning over the new trail. A party of Pasadena residents went down to Long Beach yesterday for an extended stay.

Dr. S. P. Swearingen has been confined to his room by illness the last couple of days. The sea-voyage at the operahouse by Anna Fay attracted only a small audience. George Miller has returned from a short stay at Catalina, where he intends to spend the summer.

The guests at the Spalding spent a pleasant day yesterday, picnicking in one of the mountain canyons. Scores of visitors flocked to town yesterday from Los Angeles. Some drove out, but the majority came by rail.

It has been decided to close Hotel Green May 8, in order to permit work on the annex to proceed without interference. The busiest people in town are the real estate agents, and this notwithstanding that the so-called winter season is over. The San Gabriel Fruit Company, recently organized here, has taken a building on Greenleaf street for packing purposes.

Mr. and Mrs. L. P. Hansen and family will leave on this evening's overland for Chicago, where they will spend the summer. The baseball grounds at Athletic Park will be put in first-class condition, and a number of good games will be played here this summer.

Work on Prof. Lowe's road continues to progress with all possible dispatch, and it is hoped to have the trains running inside of a few weeks. Mr. Ragan scored a great hit in his opening lecture in Los Angeles Monday evening. All Pasadena will turn out to hear him to-night. Seats free.

Both proprietors of the M. Wilson camps, C. S. Martin and A. G. Strain, were in town yesterday. They report business brisk on the summit. Seats are now on sale at Supersotto's for a Scrap of Paper, which is to be presented at the operahouse Friday evening by members of the Pasadena Dramatic Club. The contractor has begun work on the job of laying the pipe between reservoirs No. 1 and 3 of the Los Angeles Vineyard Company. The pipe line will be about a mile long. The Pasadena football team will play

a game in Pasadena next Saturday with the Wilson High-school team, on the Carr property, opposite the Terminal station. Mr. and Mrs. J. H. Outhwaite and infant son will leave on Monday for the East, where they will spend the summer—the greater part of the time at Cleveland, O.

J. S. Mills has returned from an enjoyable stay at Catalina, where he has been living lovingly on the island, and says the climate is at its best at this season of the year.

A regular meeting of the W.C.T.U. will be held at the Baptist Church tomorrow afternoon at 3 o'clock. An interesting report from the delegates to the county convention will be read.

It was erroneously stated a few days ago that Thomas F. Croft had gone to Long Beach to spend the summer. Mr. Croft has been here all the time, and is expected to spend the summer in Pasadena.

The splendid weather is keeping many Eastern visitors in Pasadena who had intended returning home much earlier. They are loath to leave this climate for the rain and storms of the East.

A regular monthly meeting of the Pasadena Lake Vineyard Land and Water Company was held Monday night. Secretary Habbick is authority for the statement that nothing but routine business was transacted.

John Smith, who was arrested Monday, on complaint of S. R. Brown, on the charge of having stolen a purse of money and a watch from the latter's saloon in North Pasadena, was held Monday for \$1000 bail to appear at the next morning's Justice of the Peace.

Street Superintendent Brown has had a conference with the Supervisors relative to the proposed changes in the city limits and Lamanda Park. The Lake Vineyard Company is willing to furnish the water at city rates if the county will take the water from the lake, which is a very desirable object will soon be attained.

Among yesterday's arrivals at Hotel Green were: Dr. T. D. Mills, Middletown, N. Y.; Dr. H. H. Ragan, the celebrated lecturer, who is under contract to deliver his 204th lecture in the Universalist Church this evening; Paris, the dancer, who has just left the depot, and all who have received invitations may obtain reserved seats free at Supersotto's. Nearly all the seats have been disposed of, but all who come will be accommodated. The lecture will be superbly illustrated.

SAN BERNARDINO COUNTY.

A Man Run Over by a Railroad Train at San Bernardino.

Instantly Killed and the Body Horribly Mangled—Murderous Assault on a Mexican by a Fellow-countryman.

SAN BERNARDINO.
On Monday, while returning to his boarding-house on Mt. Vernon avenue from the city, where he had been at work plastering a building, Joe Merrill was run down near the corner of Sixth and I streets by Santa Fe train No. 104, and instantly killed.

The train had just left the depot, and was ringing the bell and whistling at each crossing, as required by law. As the train approached Merrill, who was walking along the railroad track, he stepped off to one side and walked for a few steps, and then he was run over by the train, apparently oblivious of the approach of the train. The train was at this time too close to be stopped, and every effort was made by the engineer to warn him of his danger.

SAN BERNARDINO BREVITIES.
Capt. E. M. Duane left on Tuesday for the North, where he will reside. Miss May Kane is up from Los Angeles on Monday evening. A farewell party was given to Miss Collins by her cousin, Miss Brewer, with whom she spent the winter. Mrs. Kate Curry and son, who have been visiting the family of W. E. W. Lightfoot, left last Monday for their home in Portland, Ore.

There is considerable complaint heard about the lack of proper ventilation in the operahouse. San Bernardino is an opera-house seems to be one of the most difficult buildings in which to secure adequate ventilation. But just by this should not seem to be a problem to break up the "drafty" effect produced in ventilating it. Of the candidates for the county office, the suffrage of the citizens of San Bernardino in the late city election, but twenty-two voted with the County Clerk statements of the county in good standing, for the purpose of the board paying their poll tax. The report was accepted and the money ordered paid to the secretary of the fire company.

REDLANDS.
About 9 o'clock Tuesday morning word reached that a murder had been committed at the construction camp of the Redlands Electric Light and Power Company in Mill Creek Canyon. The Times correspondent proceeded at once to the scene, which is about eight miles from here in the narrow gorge of Mill Creek. Arriving at the spot the victim of the murderous assault, a Mexican by the name of Jose, was found still alive, but apparently fatally shot. The Mexicans of the camp were very reticent about giving a report of the affair, but the facts as far as could be learned are as follows:

Jesus Lucero, the victim, and Vicente Gualyarde, his assailant, together with about fifty other Mexicans, are employed by the Redlands Electric Light and Power Company in digging the trench and laying steeping back upon the conductors apparently from the head gates in the canyon to the power-house about a mile below. On Monday the workmen received their week's wages, and that night Vicente Gualyarde, as is their wont when in possession of money, it was a little after 3 o'clock on Monday night, when Gualyarde, finding himself "broke," made a demand upon Lucero for 50 cents, which demand the latter did not heed. Gualyarde then threatened to shoot Lucero, who gave him the 50 cents which he demanded. Thereupon Gualyarde pulled his pistol and began shooting. The first and second shots did not take effect, but the third entered Lucero's abdomen upon the left side just above the hip, and the fourth pierced his breast and lung to the right of and slightly above the left nipple. Gualyarde then skipped out in the direction of Banning, and one of the friends of the wounded man attempted to capture him, but was soon taken up the chase. Constable Jose Rivera started in pursuit on Tuesday morning. Both men had been drinking heavily, though the one that did the shooting seemed to be sober at the time. They were but a few feet apart—so close that the bullet penetrating the abdomen had traces of powder. Banning about it. Constable Thompson went to the scene with a jury, and after dressing the wounds, removed the body to the County Hospital, at San Bernardino. It is thought that he cannot recover, though the shots were from but a 38-calibre revolver.

ORANGE COUNTY.

New City Officers Appointed by the Santa Ana Trustees.

An Interesting Meeting of the Board—Business Transacted by the Supervisors—Personal Mention and News Notes.

SANTA ANA.
That was a very good entertainment at the City Hall Monday night. Ed Tedford was stage director and C. C. Edinger played a most important part, while Messrs. Whitson, Hunt, Hankey and Pitman acquitted themselves with credit as the rank and file of the new Board of City Trustees.

The audience room was crowded with interested spectators, and far out into the adjoining room was a row of anxious faces peering over shoulders and through open doors in the hope of getting some idea of the nature of the performance, at least.

The first matter taken up by this new body of city trustees was a reduction in the salary of the City Attorney. A motion was made that the salary be reduced from \$50 to \$30 per month. A motion was made to amend by making the amount \$40 instead of \$30, and when put to a vote there was another "deadlock." The trustees then voted for the amendment, and Pitman and Hankey voted in the negative. President Edinger held the key to the situation, and voted for the amendment, thus making the salary \$40 per month.

There were five candidates for the office of City Attorney, as follows: Frank Moody, Charles S. McHenry, J. B. West, J. B. Daniels, and I. N. Everett. It took six ballots to make a selection, the final choice being Z. B. West, who has been the legal adviser of the board for the past two terms.

There were seven applicants for Street Superintendent, as follows: J. B. Daniels, J. W. Earls, C. H. Hall, C. B. Canfield, J. K. Bridgeford, C. R. Ward and A. B. Minter. Upon the first ballot A. B. Minter was elected.

Sealed bids upon the boring of an artesian well for city use were opened, but as only one had been received, a motion was made and adopted to bid by request, and that the clerk be instructed to advertise in the Los Angeles Times and readvertise in the Orange County Herald for new bids for the boring of a well from seven to ten inches in diameter, the bids to be opened at the next regular meeting of the board.

Sealed bids for the furnishing of 100 tons of coal for the city power-house were opened as follows: Sprickles Bros. Company of Los Angeles, \$8.25 per ton; J. B. Daniels, \$8.25 per ton; C. B. Canfield, \$8.25 per ton; J. K. Bridgeford, \$8.25 per ton; C. R. Ward, \$8.25 per ton; A. B. Minter, \$8.25 per ton.

Monthly reports of the City Recorder and County Treasurer were read and accepted. The report of the City Clerk was read and accepted. The report of the City Treasurer was read and accepted.

Upon motion, a resolution was given permission to put down a line of one-inch water pipe in front of his place, at his own expense, and take the water at regular city rates.

Trustee Hankey addressed the board upon the importance of putting in several water pipes in the city, and the committee, consisting of Messrs. Hankey and Hunt, was therefore appointed to investigate the matter.

Trustee Hankey said he did not want to be too officious, as he was a member of the board, but there was another matter that he wanted to bring before the board, and that was the advisability of the city taking steps toward the purchase of a location upon which to build a power-house, and that the city should be subsequently erected a city hall. He then produced some figures in regard to the present expense for rent, city for city buildings, and the advantage of the improvements, which spoke most eloquently in their behalf. From the figures he gave it was estimated that the improvements could be made to the extent of \$30,000, and the interest on this amount would be less than the present rent for city buildings. The whole board expressed itself as heartily in favor of the proposition, and the matter was brought to the matter before the people.

Upon motion the salaries of all appointees by the board are to remain the same as heretofore. The appointments of J. P. Browne as chief of the Santa Ana fire department and A. C. Currie and C. C. Young as fire inspectors were confirmed by the board. The clerk was instructed to comply with the request of the City Attorney of Fresno to have an electric light plant, and toward the purchase of a location upon which to build a power-house, and that the city should be subsequently erected a city hall. He then produced some figures in regard to the present expense for rent, city for city buildings, and the advantage of the improvements, which spoke most eloquently in their behalf. From the figures he gave it was estimated that the improvements could be made to the extent of \$30,000, and the interest on this amount would be less than the present rent for city buildings. The whole board expressed itself as heartily in favor of the proposition, and the matter was brought to the matter before the people.

SANTA BARBARA COUNTY.

Prospects for a Heavy Hay Crop—The School Census.

Haying has begun in good earnest, and a drive over the country roads about Santa Barbara brings one to an atmosphere laden with pleasant fragrance that brings back memories of home and childhood to the stranger and pleases the heart of the native.

The hay crop is a promising one, and the prospects are that the order of last year in prices will be exactly reversed. Last year, it will be remembered, that prices started in high on account of the moderate yield coming upon a depleted stock, and then took a sudden drop upon the unexpected early rains, which indicated an abundant growth and rich, early pasturing. This year there is a fair amount of stock, and the hay crop is expected to be a heavy one.

The school census for the year of the Teachers' Association will be held Saturday, May 6, at 10 a.m. in the High School room. The census is for the purpose of determining the number of children in the schools, and the results will be used for the purpose of determining the number of children in the schools.

A Sanctioned Island Proposal.

(New York World.)
The following is said to be the manner in which a Sanctioned Island proposal was made when he was a victim of the tender passion. The chief told her that if she would become his wife he would send 100 sea otters to her friends; that he would never allow her to carry wood, draw water, dig roots or hunt for provisions; that he would make her mistress over his other wives and permit her to sit at her ease from morning till night, and wear her own clothes; that she should always have abundance of fat salmon, anchovies and eels, and be allowed to smoke as many pipes of tobacco as she thought proper, together with many other flattering compliments.

A Lucky Sixpence.
(New York Ledger.)
In some parts of the west of England a crooked sixpence is given for mischief done by boys, by first heating it in the fire and then pressing it on the edge of the stove with a poker. A bent coin is given to everyone who starts on a journey. And at birth the oldest sixpence that can be found is given to a child for a lucky piece. A coin of the time of Philip and Mary is thought to be especially lucky.

The Superior MEDICINE
for all forms of blood disease, **AYER'S Sarsaparilla** the health restorer, and health maintainer. Cures Others will cure you.

BUSINESS.

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES.
LOS ANGELES, MAY 5, 1893.
A New York dispatch to the San Francisco Examiner says: "The Columbian international pageant received such enthusiastic participation that this week's enthusiasm in the wholesale trade has a rational basis. The steady influx of goods from abroad will now be added to our ordinary local consumption, should soon create important replenishing demands from distributors. Jobbers already note good hotel orders, and with the delayed country orders yet to appear, the grocery outlook, at least, is better for California canned fruits, prunes and Alaska salmon."
"Canned fruits—Quiet, but the market feels the stronger footing accorded it last week, though there are yet some waverers." A bulk lot of peaches was sold at 1.50, and 1.40 is named for certain marks of apricots, but the line of prices given last week most widely represent the tone of the market.
"Oranges—No noticeable feeling, but no decline. Steamer boxed lots are offered about .40s to .45s quoted at .13; 50s to .60s; 31; smaller sizes in proportion.
"Peaches—Very quiet.
"Chicago wants customers here at 9c to 10c."
"Raisins—There is little of coast interest. Owners seem well contented with their figures. They have been able to hold firm to retain prime carrying qualities. The natural advantage of Pacific over Valencia will have a good opportunity to present itself before long. It may possibly dispel any remaining doubts about the product. Arrivals outside of the pool have ruled easy, but at the close 3 crowns fetched 3 points, and 2-4s, 4s, pointed up at 10 1/2."

New York Stocks
NEW YORK, May 2.—The bears were again in control at the Stock Exchange, and succeeded in bringing about a further material decline in prices from some of the closing figures of last night, chiefly in consequence of receipts of buying orders from London. The reaction set in, and in a time of depression prevailed, the industrial group. In some instances quotations were the lowest for many months. Tobacco, 37½; Iowa Central preferred, 61½; American Express, 100; Union Pacific, 46; Duke, 34; Omaha, 37½; American Sugar, 2½, and others less amounts.

During the afternoon a steady tone prevailed, and, although fluctuations were frequent, the market was generally upward. The advance from the lowest was equal to 3½ to 1½ per cent.

Government bonds closely steady.

U. S. 3½%—Money—On call easy at 7; closed offered at 4.

NOTHING LIKE S.S.S.
SWIFT'S SPECIFIC is totally unlike any other blood medicine. It cures diseases of the blood and skin by removing the poisons and at the same time supplies good blood to the wasted parts. Don't be imposed on by substitutes, which are said to be just as good, if *not* true. No medicine has performed as many wonderful cures, or relieved so much suffering.

"My blood was badly poisoned last year, which got my whole system out of order—diseased and constant source of suffering, no appetite and no enjoyment of life. Two bottles of brought me right out. There is no better remedy for blood diseases."

S.S.S. Swifton, Ohio U.S.A.

Treatise on blood and skin diseases mailed free.
SWIFT SPECIFIC CO., Atlanta, Ga.

POLICE BUSINESS

**Business Transacted by the Commission—
Charges Against Officers.**
All of the Police Commissioners were present at the meeting of the board yesterday morning.
The monthly report of the Chief was received and filed.
On a favorable report the petition of Eyraud & Mazet for transfer of license at No. 338 South Olive street from M. Eyraud was granted, as were also the petitions of David Clark for a transfer of the license at No. 166 North Main street from D. Felix, and one from Fritz Wamitke for transfer of license from No. 928 East First street to No. 927 on the same street. The petition of John J. O'Connell for a transfer of license at No. 1609 New Main street from Naud & Gies was referred to the Chief.
Officer Theodore Roberts presented

His resignation in a letter, speaking very favorably of his treatment while in the department. His resignation was accepted.

Officer W. Forde was granted a leave of absence for thirty days and J. Hawley was given a leave of absence for five months.

A communication was received from M. T. Collins stating that in July, 1889 Mrs. Charles A. Stevens, who is now a citizen of this city, had brought an overdraft so that the animal died. At that time Stevens agreed to settle for the damages, but had never done so.

Another communication was received from A. B. Hotchkiss, attorney for Stevens, stating that the claim was an unjust one, and asking that the board should take no action in the matter until the claim can be brought to a decision of the proper court settling the question in controversy. The commission

A complaint was received from Sergeant Chung, a Celestial, stating that "a certain plain police officer, on April 9 last, together with another officer, came into my home and broke furniture. This complaint was not sworn to."

A similar complaint, sworn to, was received from Yit Fan, stating that "a certain officer insulted him."

It was decided that a committee of three be appointed to investigate these complaints and to report to the board. They should be properly sworn to, and Commissioners Boshshehl, Bradish and Weldon were named as such committee.

A bill from Mullen, Bluet & Co. against C. A. Stevens, for furnishing a bill of exchange to the latter, was also certain whether it was a just one and had not been paid.

On motion, William Matsukelwini

The board then adjourned, after which it was decided that the charges against policemen should be investigated by a committee. The investigation will be held at the Chief's office Friday evening.

SHIPPING NEWS.

SAN PEDRO, May 2.

BUY A VINEYARD!

\$50.00 An Acre.

The celebrated Magnolia Vineyard of 480 acres in orchard, alfalfa, musc and malaga vines has been subdivided into 20-acre tracts, and is now offered for sale at a great sacrifice in order to settle up an estate. This property is located eight miles west of Fresno city, adjoining the great Fruitvale estate, and at the terminus of Chateau avenue, one of the most beautiful drives in California, a one and a half miles from the railroad depot at Rolando. The land is perfect level, all under irrigation, with perfect water right running with the land. The soil is a rich red loam and free from alkali. The entire property is fenced with rabbit-proof fence, and the stand is perfect. One 80-acre tract has a barn, 40 horses, large ranch house, sheds, windmill, tank, blacksmith shop and cow houses, Howe scale, 7000 trays, 800 sweat boxes, farming utensils, etc., which

go with this 80-acre tract if sold to the highest bidder. The tract is located in the Fresno Valley, Fresno County, California. It is connected by telephone with the general system in Fresno, and is at present rented for one-half of the crop delivered in Fresno with the privilege to cancel lease in case of sale. It will pay \$100 per acre annually if properly cultivated, and we guarantee \$50 per acre net from the coming crop.

Terms of Sale:

Two hundred dollars per acre, one-fourth cash and balance secured by mortgage on such terms as will enable the purchaser to pay the same from the proceeds of the property with interest at 8 per cent. Title perfect.

PASADENA.

Property-owners Advised to Go Slow
on the Paving Proposition.

Los Angeles Musicians at the Pasadena Improvements of Notes-Opera House.

It goes without saying that between now and Monday, May 15, there will be some lively hustling by the respective owners of a cement-concrete base and of an asphalt-concrete base for the proposed street pavements to obtain the signatures of a majority of the property-owners, who will be called upon to pay for such work, to petitions calling for one or the other of these bases.

So far as the present specifications go, the asphalt-concrete men have the upper hand, for that is the kind of a base the specifications call for. But at least a few of the concrete men are still two sides to the question, and before making their signatures to any petition property-owners who have hitherto given no special thought to the subject will well do a little investigating for themselves.

They will do well to inquire whether the "hydraulic" cement used in the concrete is so often by the Portland cement-concrete, which is being so strenuously advocated by certain of its citizens. Probably the answer is "yes," it is undoubtedly in other instances cited the "hydraulic cement" is composed of some local cement, which is adopted on account of its cheapness as at Denver.

It will also be well to investigate whether or not such of the asphalt pavements in this vicinity as have been reported under satisfactory conditions are composed of pure California asphaltum. It should also be inquired what constitutes a perfect base and the relative properties of asphalt and cement concrete should be compared from this standpoint.

MUSIC AT THE OPERA HOUSE.

The Ideal Guitar and Banjo Club of Los Angeles gave its eighth public concert at the opera house before a fair-sized audience. The stage was prettily decorated in appreciation of the club, the pieces representing various musical instruments, which combined to make the club present a very picturesque appearance. The club was assisted by Mrs. Joseph Rubo, bass; Miss Hilda Davidson, soprano; and by Messrs. A. H. Boye and E. Latenser on the mandolin. The program consisted of the same as that given the previous evening in Los Angeles, and the success of that occasion was repeated. The various numbers were warmly received and an encore was demanded in almost every instance. Prof. de Lano's Pasadena pupils were out in full force and considerable applause was the most enthusiastic portion of the old times.

BEGINNING TO SEEM LIKE OLD TIMES.

Since E. C. Webster bought his old residence property on South Mifflin avenue improvements have been constantly in order until the place is beginning to look again to attract the favorable attention it received when the owner was in the heyday of his boom prosperity. The exterior has been repainted in new and novel colors that give to the stately mansion, no matter from what side approached, a highly artistic appearance. The lawn and flower walks have been repaired, the lawn beautified and hundreds of additional flowers planted. When once Mr. Webster gets the exterior to his liking, he will turn his attention to the interior, and give it a thorough overhauling, by which time the place will stand conspicuous in the foremost rank of Pasadena's handsome residences.

PUBLIC MEETING OF THE LINCOLN CLUB.

On Thursday evening next, the Lincoln Club will hold a public meeting at the hall of Throop University, in the Worcester block. This is a public meeting, and an address will be delivered by Prof. A. L. Hamilton of the Garfield school, on the subject of "Better Government." Other speakers will follow on the same subject, and an interesting and instructive meeting is expected.

PASADENA BRIVITIES.

The street sprinklers are running on full time. Yesterday's overland arrived about three hours late.

Mrs. Pratt, of Sierra Madre was among yesterday's late arrivals.

A meeting of Pasadena Lodge, K. of P., was held last night.

Carpenters have begun work on the flooring of the Hotel Green annex.

Mrs. S. R. Lippincott, Jr., has returned from a pleasant trip to Catalina.

A party of visitors went up to Camp Wilson yesterday morning over the new trail.

A party of Pasadenaians went down to Long Beach yesterday for an extended stay.

Dr. S. P. Swearingen has been confined to his room by illness the last couple of days.

The season given at the opera house by Anna Eva Fay attracted only a small audience.

George Miller has returned from a short stay at Catalina, where he intends to spend the summer.

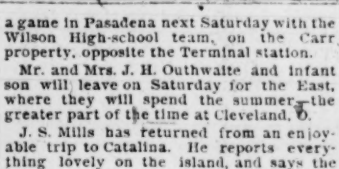

The guests at the Spalding spent a pleasant day yesterday, picnicking in one of the mountain cañons.

Scores of visitors flocked to town yesterday from Los Angeles. Some drove out, but the majority came by rail.

It has been decided to close Hotel Green May 8, in order to prevent work on the annex to proceed without interference.

The busiest people in town are the real estate agents, and this notwithstanding that the so-called winter season is over.

The San Gabriel Fruit Company, recently organized here, has leased a building on Granddell street for packing purposes.

ORANGE COUNTY.

New City Officers Appointed by the
Santa Ana Trustees.

An interesting meeting of the Board of Supervisors was held at the Board of Supervisors' Personal Mention and News Notes.

SANTA ANA.

That was a very good entertainment at the Hall Monday night. Ed Tedford was stage director and C. Edinger played a most important part, while Messrs. Walton, Hunt, Hankey and Pitman acquitted themselves with credit as the rank and file of the new Board of City Trustees.

The audience-room was crowded with interested spectators, and far out into the adjoining room was a row of anxious faces peering over shoulders and through the open doors in the hope of getting some idea of the nature of the performance, at least.

The first matter taken up by this new body of actors—the City Trustees—was a reduction in the salary of the City Attorney. A motion was made that the salary be reduced from \$10,000 to \$8,000 per annum. A motion was made to amend by making the amount \$4,000 instead of \$3,000, and when put to a vote the amendment was carried.

There were five candidates for the office of City Attorney, as follows: Frank McKelvey, Charles S. McKelvey, Z. B. West, F. O. Daniels, and L. N. Everett. It took six ballots to make a selection, the final choice being Z. B. West, who was elected.

There were seven applicants for Street Superintendent, as follows: W. H. Johnson, J. W. Eabart, C. L. Hall, C. R. Candie, J. R. Bridgford, C. R. Ward and A. B. Minter. Upon the first ballot A. B. Minter was elected.

Sealed bids upon the boring of an artesian well for city use were opened, but only one bid had been received, and it was made and adopted that the bid be rejected, and that the clerk be instructed to advertise for bids for the boring of a well from seven to ten inches in diameter, the bids to be opened at the next regular meeting of the board.

Sealed bids for the furnishing of 100 tons of coal for the city power-house were opened as follows: Standard Coal Company of Los Angeles, \$2.25 per ton, f. o. b.; Santa Ana and San Jacinto Coal Company, \$6.00 per ton, f. o. b. The matter was referred to a committee, consisting of Messrs. Pitman and Whitson, with power to act.

Monthly reports of the City Recorder and County Tax Collector, and the annual report of the City Clerk, were read and accepted. The report of the City Treasurer was read and accepted.

Upon motion, John Russell was given permission to put down a line of one-inch water pipe in front of his place, at his own expense, and take the water at regular city rates.

Trustee Hankey addressed the board upon the importance of having in the water troughs and hitching posts in different portions of the city, and a committee, consisting of Messrs. Hankey and Hunt, was thereupon appointed to investigate the matter.

Trustee Hankey said he did not want to be too officious, as he was a new member of the board, but he desired to bring before the Trustees for discussion, and that was the duty of a member of the board, and he was sure that the board would be interested in the matter.

The whole board expressed itself as heartily in favor of the proposed improvement, and it was estimated that the improvements could be made to the extent of \$30,000, and the interest on the amount would be less than half of what the city would be now paying for rented quarters.

The whole board expressed itself as heartily in favor of the proposed improvement, and it was estimated that the improvements could be made to the extent of \$30,000, and the interest on the amount would be less than half of what the city would be now paying for rented quarters.

The whole board expressed itself as heartily in favor of the proposed improvement, and it was estimated that the improvements could be made to the extent of \$30,000, and the interest on the amount would be less than half of what the city would be now paying for rented quarters.

Property-owners Advised to Go Slow
on the Paving Proposition.

Los Angeles Musicians at the Pasadena Improvements of Notes-Opera House.

It goes without saying that between now and Monday, May 15, there will be some lively hustling by the respective owners of a cement-concrete base and of an asphalt-concrete base for the proposed street pavements to obtain the signatures of a majority of the property-owners, who will be called upon to pay for such work, to petitions calling for one or the other of these bases.

So far as the present specifications go, the asphalt-concrete men have the upper hand, for that is the kind of a base the specifications call for. But at least a few of the concrete men are still two sides to the question, and before making their signatures to any petition property-owners who have hitherto given no special thought to the subject will well do a little investigating for themselves.

They will do well to inquire whether the "hydraulic" cement used in the concrete is so often by the Portland cement-concrete, which is being so strenuously advocated by certain of its citizens. Probably the answer is "yes," it is undoubtedly in other instances cited the "hydraulic cement" is composed of some local cement, which is adopted on account of its cheapness as at Denver.

It will also be well to investigate whether or not such of the asphalt pavements in this vicinity as have been reported under satisfactory conditions are composed of pure California asphaltum. It should also be inquired what constitutes a perfect base and the relative properties of asphalt and cement concrete should be compared from this standpoint.

MUSIC AT THE OPERA HOUSE.

The Ideal Guitar and Banjo Club of Los Angeles gave its eighth public concert at the opera house before a fair-sized audience. The stage was prettily decorated in appreciation of the club, the pieces representing various musical instruments, which combined to make the club present a very picturesque appearance. The club was assisted by Mrs. Joseph Rubo, bass; Miss Hilda Davidson, soprano; and by Messrs. A. H. Boye and E. Latenser on the mandolin. The program consisted of the same as that given the previous evening in Los Angeles, and the success of that occasion was repeated. The various numbers were warmly received and an encore was demanded in almost every instance. Prof. de Lano's Pasadena pupils were out in full force and considerable applause was the most enthusiastic portion of the old times.

BEGINNING TO SEEM LIKE OLD TIMES.

Since E. C. Webster bought his old residence property on South Mifflin avenue improvements have been constantly in order until the place is beginning to look again to attract the favorable attention it received when the owner was in the heyday of his boom prosperity. The exterior has been repainted in new and novel colors that give to the stately mansion, no matter from what side approached, a highly artistic appearance. The lawn and flower walks have been repaired, the lawn beautified and hundreds of additional flowers planted. When once Mr. Webster gets the exterior to his liking, he will turn his attention to the interior, and give it a thorough overhauling, by which time the place will stand conspicuous in the foremost rank of Pasadena's handsome residences.

PUBLIC MEETING OF THE LINCOLN CLUB.

On Thursday evening next, the Lincoln Club will hold a public meeting at the hall of Throop University, in the Worcester block. This is a public meeting, and an address will be delivered by Prof. A. L. Hamilton of the Garfield school, on the subject of "Better Government." Other speakers will follow on the same subject, and an interesting and instructive meeting is expected.

PASADENA BRIVITIES.

The street sprinklers are running on full time. Yesterday's overland arrived about three hours late.

Mrs. Pratt, of Sierra Madre was among yesterday's late arrivals.

A meeting of Pasadena Lodge, K. of P., was held last night.

Carpenters have begun work on the flooring of the Hotel Green annex.

Mrs. S. R. Lippincott, Jr., has returned from a pleasant trip to Catalina.

A party of visitors went up to Camp Wilson yesterday morning over the new trail.

A party of Pasadenaians went down to Long Beach yesterday for an extended stay.

Dr. S. P. Swearingen has been confined to his room by illness the last couple of days.

The season given at the opera house by Anna Eva Fay attracted only a small audience.

George Miller has returned from a short stay at Catalina, where he intends to spend the summer.

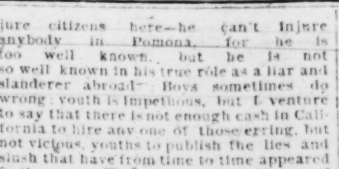

The guests at the Spalding spent a pleasant day yesterday, picnicking in one of the mountain cañons.

Scores of visitors flocked to town yesterday from Los Angeles. Some drove out, but the majority came by rail.

It has been decided to close Hotel Green May 8, in order to prevent work on the annex to proceed without interference.

The busiest people in town are the real estate agents, and this notwithstanding that the so-called winter season is over.

The San Gabriel Fruit Company, recently organized here, has leased a building on Granddell street for packing purposes.

The Frightful Record of the "Mac" Billy Young.

Believed to Be Responsible for the Death of at Least Three Unfortunate Women—His San Francisco Career.

If the reported record which the "mac" "Billy" Young is said to have acquired in this and other cities is a true one the public has reason to feel thankful that the preliminary examination of the wretch for the murder of the prostitute Irene O'Brien has resulted in his being held to answer before the Superior Court without bail.

The principal witness examined yesterday was Dr. McGarty, who attended the burned girl. He testified to having found indications upon the wall in the room where the fire was, and recited other circumstances tending to show that the lamp was not overturned in the manner which the girl said it was. At the close of the testimony Justice Austin ordered that the defendant be held.

Regarding Young's former record Chief Clerk Glass has as follows: "In reply to your letter in reference to the record, of one W. H. Young, I submit the report of Detective Anthony: William Young was at one time living with a prostitute by the name of Josie Watson. He often beat her terribly, until he was arrested for battery, vagrancy and on other charges. She finally left him, and then he took up with Irene O'Brien. She was young and green, and made considerable money, every cent of which Young took from her, not allowing her even enough to buy clothing. He also lived in Sacramento with a girl by the name of Mamie Roberts, alias Caloghan. She was once burned in much the same way as was Irene O'Brien. It was a well-known fact that Young was responsible for the girl's injuries, but it could not be proven, as the girl refused to testify. He also lived with a girl who died under very peculiar circumstances. The talk among the girls here was that she died from the effects of a beating received at the hands of Young. The man is a desperate character when under the influence of liquor."

Such is the unenviable record of the "mac" Young. Although his crimes have been many, and he has heretofore been successful in escaping punishment, he will now undoubtedly be made to justify for his fiendish work.

A Cruel Husband.

Sam Hamilton, who lives at No. 839 South Spring street, was arrested yesterday afternoon on a charge of battery preferred by his wife. Mrs. Hamilton recently began suit for a divorce, and on Monday the papers were served upon her husband. This proceeding put him in ill-humor and he started in to vent his feelings upon his family the same evening by abusing Mrs. Hamilton and driving her from the house. The police were notified, but when the patrol wagon reached the place, Hamilton had locked the door and refused to open it unless the officers had a warrant for him. It was reported that he used a heavy stick to beat his wife and children with, and that one of the cruel blows had broken the collar bone of his boy. He spent last night in the City Prison, however, for yesterday Mrs. Hamilton lost no time in procuring the necessary warrant for his arrest.

Had His Foot Crushed.

A sixteen-year-old boy named Priel had his right foot crushed last evening by the wheels of a freight train near the San Fernando street depot. The lad had attempted to ride by holding on the side of a box car, when a sudden jerk loosened his hold and his foot was caught under the flange of a wheel. Police Surgeon Bryant dressed the injured member, which he found in a badly mangled condition.

THE HOTEL JACKSON

at Santa Monica is now open for the reception of guests. The house is a new brick structure, centrally located and newly and elegantly furnished, to which is added the latest appliances for comfort and convenience, and a first-class table.

Of all resorts on the Pacific Coast none are more charming than beautiful Santa Monica. It has fine drives, picturesque cañons, smooth beaches, excellent fishing and hunting, an ostrich farm, the National Soldiers' Home, the longest wharf in the world, and to add to its attractions, it now has the new Hotel Jackson, a first-class hotel, with rates from \$2 per day and up.

DRESSMAKING. Mrs. J. H. Wallace, late of Chicago, is now in charge of our dressmaking parlors. Her fitting is guaranteed perfect, style and finish with-out equal. Satisfaction is assured. Own materials made up. Mourning and street suits a specialty. Suits made on short notice. Prices reasonable. Popular. Cloak and Suit Co., 217 South Spring street, adjoining Hollenbeck Hotel, between Second and Third.

A REVIVIFYING OF nature's latent forces occurs every spring. At this time, better than at any other, the blood may be cleansed from the humors which infect it. The best and most popular remedy to use for this purpose is Ayer's Compound Extract of Sarsaparilla.

Recovered—sound health for every consumptive who hasn't delirated too long.

Dr. Pierce's Golden Medical Discovery. Just as it cures the worst of the many forms of scrofula, so it cures, and just as certainly, the scrofulous affection of the lungs, that is called Consumption—through the blood. But, even with this remedy, it won't do to wait. It can't make new lungs, but it can make diseased ones healthy when nothing else will. As a blood-cleanser, strength-restorer, and flesh-builder, there's nothing like it known to medical science. For Scrofula in all its forms, Bronchitis, Throat, and Lung affections, Weak Lungs, Asthma, Severe Coughs, and every disease that can be reached through the blood, it's the only remedy so unfailing that it can be guaranteed. If it doesn't benefit or cure, in every case, you have your money back. On these terms, it's an insult to your intelligence to have something else offered as being "just as good."

By the Specialists, Dr. De Monco and Associates.

The \$5.00-a-Month Rate for Catarrhal Affections Extended During the Month of May.

The Latissude of Spring—Cause of This Plainly Explained in a Few Words.

Spring appears to have fairly come, yet "that last cold" you contracted still clings to you, doesn't it? In fact, it is even more annoying than it was during the inclement weather. You wake with a "bad taste" in your mouth and your nostrils tightly stopped up with hard substance, and your throat easily fills up and you have to cough and spit to clear it these mornings. Your appetite is weak and variable, and you have headache easily. Your whole system is weak and languid—you feel "all washed out." You had better have that cold and throat trouble cured. That is what is causing your weak appetite. The season has fingered cold and choked-up head means just incipient catarrh. And this catarrh is affecting your stomach—causing that nasty taste in your mouth in the morning, impairing your digestion, and so making you feel miserably and "all washed out." You had better have that cold and throat trouble cured. That is what is causing your weak appetite. The season has fingered cold and choked-up head means just incipient catarrh. And this catarrh is affecting your stomach—causing that nasty taste in your mouth in the morning, impairing your digestion, and so making you feel miserably and "all washed out." You had better have that cold and throat trouble cured. That is what is causing your weak appetite. The season has fingered cold and choked-up head means just incipient catarrh.
